TAXES DUE U.S. ON ROSENWALD'S GIFTS, IS RULING

Philanthropist Loses Case in Supreme Court.

Washington, D. C., Nov. 4.—[Special.]—Julius Rosenwald, millionaire Chicago philanthropist, must pay income taxes on gifts amounting to \$814,631, which he caused to be put into the Julius Rosenwald fund during 1919, 1920 and 1921, the United States Supreme court decreed today.

The court denied a petition by Mr. Rosenwald's attorneys for a writ of

The court denied a petition by Mr. Rosenwald's attorneys for a writ of certiorari to the Unifed States Circuit Court of Appeals, which had upheld the ruling of the Chicago Internal revenue collector and the board of tax appeals that payments to the fund were taxable.

The revenue act of 1918 allowed exclusion from income taxes gifts to religious, charitable, and scientific organizations not to exceed fifteen per cent of an individual's net income. For a number of years Mr. Rosenwald has contributed more than fifteen per cent of his income to charity, according to a brief filed by Solicitor General Charles E. Hughes Jr. In 1917 he organized the Julius Rosenwald fund, headed by himself as president and members of his immediate family as officers, through which to dis-tribute his donations.

In 1918 he conveyed to the fund fu-**BABIES AND SELF**

WHAT causes decay? Germs. Germs, with tartar, are held to be a chief cause of pyorrhea-and of virtually every other common tooth and gum disorder known to modern science.

Germs on the teeth-and there are millions - are difficult to reach. A dingy, glue-like film envelops them and holds them in contact with the tooth's enamel.

This film coat gets into crevices and stays. It clings so stubbornly that only a special film-removing tooth paste can remove it satisfactorily. That tooth paste is the scientific formula called Pepsodent. Utterly different from every other, as you notice instantly when it touches your teeth.

Remove the FILM that breeds bacteria

and turns white teeth dull and dingy

First Pepsodent curdles film, then removes it with complete safety to the enamel. No pumice, no harmful grit. No crude abrasive, but a creamy paste so gentle that it is recommended for children's teeth and for tender gums,

Safeguard your teeth by this scientific tooth paste. Give them the dazzling whiteness Pepsodent alone can bring. Write for free 10-day tube to The Pepsodent Co., 1104 S. Wabash Ave., Chicago.

liquid magnesia is best

Any doctor can tell you why Phillips Milk of Magnesia (a liquid) is the ideal anti-acid for sour stomach, gas or other gastric disorder. A liquid is kind to an upset stomach. Solids often irritate its over-sensitive condition.

Dry magnesia will not dissolve in water. When compressed into tablets or wafers, magnesia becomes still moré in-

soluble, with danger of passing through the stomach and bowels as irritating grit. Phillips Milk of Magnesia is a liquid— the only form in which true Milk of Magnesia can be made. It is immediately active. It has a strong affinity for acids:

and Achievements

BACK in 1879, the State Bank of Chicago was founded. Its officers and directors were inspired by this purpose:-to give sincere, friendly, personal and efficient service to every patron. This ideal it has practiced throughout the half-century since.

When, in 1862, The Foreman National Bank was founded . . . sound counsel and generous understanding were the keynotes -the working ideal-on which every subsequent transaction was carried out. Unchanged in principle or practice, they are the keynotes, the working ideal, of this bank at the present moment . . .

It matters little, after all, what phrases are used to define the ideals of these two great Chicago banking houses. Their deeds -their actual business records over the past

five and six decades-show them to have been separate in location, but in spirit and accomplishment, identical and alike!

Nothing, then, could be more logical than their ultimate union. And this union of achievements and ideals will enable the new and united institution to function to still greater advantage in the future. Invested capital reaching \$38,000,000-and resources exceeding \$220,000,000 . . . coupled with the rich experience only years can bringwill insure to every patron security and sound counsel adequate to all his needs.

To the patrons of both banks is pledged the same very genuine attitude of friendliness . . . the same good will expressed toward all who enter its doors - and the easy availability of executives to every patron.

CHICAGO PORTRAITS

Are you one of the Hundred Thousand? Watch this series for your own character analysis and see. Considerations of policy, of course, prevent us from using real names and photographs. But one of these days you are sure to find yourself here, large as life! You may find, also, a valuable suggestion.

The man with 3 minutes tor murder

T least, that is as much as he cares to give to Athe accounts in his evening paper. When he is really in the mood for an evening with crime, he much prefers a cracking good detective story.

For him, a newspaper is a means for keeping up with the news, not a device for killing time.

Real news, what there is of it, he finds interesting and well worth while. But not enough of real importance happens in an ordinary day to make a whole evening's reading for him.

He wants time for his family, for books, time to play, to go to the theater, to listen to the radio. And perhaps a little time outside of office hours to think of his business too.

Do you wonder he is impatient with his daily task of digging under columns and columns of crime, scandal, divorce, to find the news he wants?

Crime is too far-reaching in its social effects to be ignored. But he can learn all he needs or cares to know about it in just three minutes a day. Are you

one of the 100.000 Another one of the Hundred Thousand—that discriminating minority for which the Chicago Evening Post is edited!

The declarations did serve, possibly, to alky doubts in the minds of business men regarding the future prosperity of business as distinguished from the stock mar-ket. There is little criticism of Mr. Hoover's latest utterance along this line because the need for a steadying word at this time is felt. The hope of the President now, as previously, is to confine the losses, so far as possible, to the stock market. When the President said, in the midst of the debacie, that the outlook was not gloomy he did so not to encourage stock buying but to encourage commodity buying. He did not want busine men to cancel their orders for merchandise, for it is upon these orders that the prosperity of the

country finally depends. What effect on the market, if any, is registered by public statements, even on the authority of a sident, at times of frenzied speculation such as we have lately experienced, is highly questionable. It might be argued plausibly that all the officeholders together had less influence on the course of the market than Mr. Babson, and only a mind which believes in Santa Clauses thinks that Mr. Babson did more than precipitate the

Black and Silver . . . in an Unusual New Glass Ensemble

It's ever so smart... this new vogue of black and silver glass-ware. For luncheons and teas you'll agree the black and silver ensemble is very effective indeed... In fact just as effective in glassware as in apparel. The silver design is modern in character and forms a striking contrast against the mirror black background. Against a white cloth the ensemble is utterly distinctive and altogether unusual. The price is surprisingly low.

Republicans Protest, but Ask No Roll Calls.

BY ARTHUR CRAWFORD.

The duty on synthetic camphor was reduced from 6 cents a pound as in the present law to one cent on the motion of Senator Robert M. La Follette [Rep., Wis.]. The house bill reduced the rate to one cent, which is the same as applies on natural crude camphor, but the finance committee recommended restoration of the 6 cent duty.

The coalition also made no objection to a committee amendment which increased the duty on vanillin by transferring it to the soal tar products paragraph and another amendment which decreased the duty on synthetic indigo and sulphur black dyes. It had been expected that the coalition would oppose the higher duty on vanillin and would seek to put synthetic indigo and sulphur black on the tree list.

Detitions if a majority of the gasoling companies will do the same.

Each of the 114 suits attacked the constitutionality of the 1929 gas tax act and asked that State Director of Finance Garrett Kinney be restrained from paying the tax collected for August into the state treasury.

Mooseheart, located only 40 miles from Chicago, is a city and country estate of 1023 acres on which are located 147 buildings, providing administration, educational, industrial, farming, living and recreational quarters.

Children are placed in small family groups, under the care of a Mother, usually the widow of a deceased Moose. No uniforms—each child selects his or her own clothes. Each child receives a thorough grade and high school education. Every child is taught a trade or vocation at which he or she can earn a living. Through social contact their community spirit is developed to the highest degree. Thus they are equipped to make their way in the world, becoming useful, honest and industrious citizens.

No Wonder Men Join The Moose

Besides the great mental comfort a Moose enjoys from knowing his children will be taken care of in case of necessity, there are many personal benefits that come to him. Moosehaven, our home for the aged located near Jacksenville, Florida, is the haven of many of the old Moose and their wives. Through its many lodges with large commodious quarters, open to members and their families at all times, the order provides abundant opportunity for good fellowship and social activities. Greater Chicago Lodge No. 3 is the scene of many festive gatherings.

Thomas Taylor.

Attorneys for three neighboring property owners attacked the amendment as special legislation enabling Cuneo to gain a rental advantage of 30 cents per square foot over other loop property owners. They predicted the creation of a solid walf of buildings rising 440 feet without a setback along Michigan avenue and Wacker along Michigan avenue and Wacker drive walling in the loop, if the amendment is not adjudged void.

Those fighting the amendment are the owners of the Crerar library, the Michigan-Lake building, and the 175-181 North Michigan Avenue building. They have brought certiorari proceed ings questioning the decision of the zoning board of appeals in upholding

Lawyers Challenge Legality. In challenging the legality of the ordinance Attorney Joseph B. Flem-ing of Kirkland, Fleming, Green and Martin, and Attorney Clay Judson of Wilson, McIlvaine, Hale and Thomp-Wilson, McIlvaine, Hale and Thompson consumed the entire morning and haif of the afternoon. The remainder of the afternoon was taken by Attorney David Levison, representing Cuneo: for the beginning of his opening statement. Because of the unitsual nature of the case Judge Taylor allowed latitude in the statements, permitting introduction of arguments. The hearing is expected to extend fitteen days. Many expert witnesses are expected to be called.

The demand for revocation and void-

ing of the building permit was made on the theory that the amendment is contradictory to the purposes se forth in the statute authorizing zon ing laws. Attorney Fleming charged that the amendment was not enacted in proper exercise of police power or the purpose of promoting public seath, lessening congestion, safety roin fire hazards, giving adequate light, conserving property values, or for the best advantage of the city

Ambiguity of the amendment might permit other buildings to rise in cases where the prescribed street lies between the buildings and the park, Fleming said. This construction would permit approximately twenty super buildings, which would lead eventually to a solid wall on Michigan avenue, Wacker drive, and on Lake Shore drive, he asserted.

In attacking the specific advantages to Cuneo, under the amendment, and the grossest of injustices."

Attorney Judson attacked the manner in which the city council passed the amendment. The soning law was created after many weeks of hearings and study by experts, he said, while the amendment attacking one of its most vital parts was adopted without a hearing and without notice to interested parties.

"It singles out one individual and allows him to erect a building 176 feet higher than any other in Chicago. This is the grossest of special legislation, a most widespread contradiction of statute, and violates the best dictates of public welfare. The members of the city council knew nothing of the nature of the amendment, as we are ready to prova." ing said. This construction would permit approximately twenty super buildings, which would lead eventually to a solid wall on Michigan avenue, Wacker drive, and on Lake Shore drive, he asserted.

In attacking the specific advantages

the discrimination against neighboring property owners, Mr. Fleming said the proposed tower would have 50 per cent more rentable area for every foot of ground than those owners who have built under the old law. This, it was said, would give \$350,000 a year more in rental and would increase the value of the property by \$7,000,000.

running.

Northwestern's triumph was not as much of an upset as many regarded it because the Wildcats, in advance, figured only a shade under the Illini, with the possibility of breaks deciding it. The Purple line, rather than breaks, did so. True, a short Illinois punt was a factor, but the punt was short because Purple forwards were hurrying the kicker. Moreover, when a team advances 42 yards to a touchdown without losing the ball it is hardly a break as that term is employed.

The Wake had ranked the lines equal, tackle to tackle, with Purple ends and Illinois back field superior. Purple linemen, from tackle to tackle, upset that estimate and thus more than equalized the back fields. Again, if Berghern rose to the greatest height of his Big Ten career, both in ball carrying and punting. Even in their triumph, Evanston sympathizers cannot help from lamenting the early injury to Bruder, which possibly cost a tie for the title.

Mr. Brown wishes to be fought by Huat and doubtless will be obliged. Huat was an infant Paul Revere of the great war. BY WALTER ECKERSALL.

Jimmy McLarnin of California wor clean cut decision over Lightweight Champion Sammy Mandell at the Chicago stadium last night. McLarnin proved himself a two fisted fighter, minding one of the days of McGov ern and Ketchel.

The decision met with the approva of the 18,624 fans. The receipts were \$88,000.

The yerdict of the officials, however, was not unanimous. E. L. Cook, one of the judges, voted in favor of Mandell, while the other judge, Joe McNamara, and Referee Ed Purdy ruled in favor of McLarnin. Mandell's title

The Californian won five of the rounds, two went to Mandell, and three were about even. It was Jim my's aggressiveness and his ability to land scoring punches with either hand that gave him the verdict. The Californian was on top of the cham-pion in nearly every round, and sev-eral times he forced Sammy to the ropes with long overhand left and right swings. At other times he made Mandell retreat with a series of body

As early as the second round Mc-Larnin stung Mandell with a right cross. The blow knocked Sammy back on his heels, but he recovered and fought back gamely. In the fifth session the Californian again rocked session the Californian again rocked the 135 pound titleholder with a left hook and followed with two overhand right swings. In the seventh Jimmy shook his opponent with rights and lefts to the face and Sammy covered in his own corner. In the final round McLarnin tried hard for a knockout. He staggered Mandell with a left hook, but couldn't follow through.

McLarnin's head back with stiff left

With the exception of the two rounds which went to Mandell, the Californian had all the better of the milling. He points by pumping his right and left into Mandell's midrift. At long range. Jimmy mixed his punches. He shot for the body with one wild swing and then scored to the face with the other.

McLarnin Used a Crouch. At no time during the fight was McLarnin afraid to take all the punches Sammy released. He purpose-y took several blows in order to counter with a right or left swing. Jimmy assumed a crouching position and had his body behind every punch. As early as the second round the Californian knew he had his man and from then on until the final tap of the bell he

Smiling Jimmy McLarnin's Irish eyes were shining with new luster when he returned to his dressing room at the Chicago Stadium last night.

"I showed 'em, didn't I, Pop?" he shouted at his manager, Pop Foster after they had crowded their way through the lanes of admirers trying to shake his hand.

"I guess that makes up for that trimming Sammy gave me in New York." he exclaimed.

"Sammy's a tough battler, make no mistake about that," Jimmy explained.

"There isn't a man living who, can whip him at 135 pounds the way he fought tonight. I just had his number, that's all. I think he was more dangerous tonight than when I fought him at the Polo grounds. He didn't hit me as often, but his blows packed more steam."

Neither Was Badly Marked.

Neither fighter was badly marked when he left the ring. In the opening round, McLarnin's lower lip was counted for his victory, McLarnin said that it perhaps helped. He insisted, however, that he was a greatly improved fighter over the McLarnin that Mandell had faced 18 months previous, Mandell took his defeat like a champion. There was no squawking, no alibis for the first decision that ever has been given against him.

"McLarnin's additional weight was no factor," Sammy said. "He had everything tonight and I couldn't seem to get going. All I want is a return bout."

The champion admitted that McLarnin hit him more often than he ever had been walloped before. Several of his punches, particularly those to the body, hurt. But Sammy claimed none of them dazed him.

tumulituous reception when they entered the ring but McLarnin had an edge when they left.

McLarnin had a cut lip and a pair of sore fists as mementos of his greatest triumph. Mandell was unmarked. He left, for Rockford shortly after the bout.

Foster, McLarnin's manager, said Jimmy had two chances to win by a knockout. One was in the sixth round, when he clipped Sammy on the chin with a right. The other was in the tenth, when he racked the chambouts. Paddy Harmon tried to encourage community singing with "Hall, Hall the Gang's All Here."

Fans sitting in the distant reaches of the stadium had no difficulty understanding announcements. The loud speakers were working perfectly.

Last winter while visiting the Rockefeller bird refuge in Louisiana we found that the blue geese and snow geese frequently play around together. Undoubtedly this flock which spent a few days here along the Illinois was made up of both of these species as hunters have described the "white birds" in the flock. Iowa City, Ia., Nov. 4.—[Special.]

Refreshed by a week of comparative inactivity, the University of Iowa football squad swung zestfully into its preparations for Minnesota today, ripping a freshman line wide open while the varsity backs romped over for four touchdowns in less than half an hour.

The important part of this psychology to gy story is that Thistlethwaite thinks it can be realized.

"This Wisconsin team is set to play heads up football. The line came through in great style for the first time Saturday against Purdue. The backs gained more yards against Iowa and Purdue than any other opponents of these two teams. Let Wisconsin soore one touchdown against Chicago and more touchdown will follow." he

"After this," writes a 60-year-old shaver from Chicago, "you can make mine a mint julep shave every time. I've been shaving for 40 years, using all kinds of shaving creams and soaps and all types of razors, but never did I have a shave like that I got from BRISK. No wonder you call it the mint julep shave. I'm some judge of refreshments and I'll say BRISK deserves the appellation. I used to have to go over my face two or three times to get a clean shave, but now 'once over' does the job and there's none of that rawness of skin or that dry, tight feeling. After a BRISK shave my skin is as soft as a fine kid glove and as fit as a Stradivarius." First of all, BRISK lathers instantly and freely in hot or cold water and plenty of lather is the first requirement of a good shave. BRISK absorbs two to threestimes the amount of water that old fashioned shaving cream does. Hence it makes two or three times the amount of lather—and a lather that slays mbist on your face until you finish your shave!

beard oil and soaks the hair soft for easy, clean cutting. Moreover, it lubricates the cutting stroke of the razor. You know how a bit of soap on a saw eases its passage through a log—well, that's how BRISK smooths the path of the razor. The razor does not "pull" or bump along over your face, but glides sweetly over the skin, cutting down the hair cleanly and closely and almost without effort.

Every stroke of the rasor does a clean job. No need to go over and over the same spot and "butcher" your face to get a dose shave. BRISK paves the way.

Even the package that BRISK comes in is different. It's a flat, oval tin box for men only, convenient and businesslike to use. Let your face have just one taste of a BRISK mint julep shave. Get BRISK now at any good drug store or toilet goods counter—fifty cents.

BRISK has four brothers: ZEST, a refreshing after-shaving lotion; TRIM, a nair dressing in cleanly stick form; SMOOTH, a powder that kills shine without howing powder; STIP, a new type "stoptic" that closes cuts pronto!

by the DUTCH MASTERS

Remember the old recruiting slogan: "Join the Marines and see the world"? We've got a better one than that. "Join the Friendly Order of Dutch Masters Smokers and see the world through a cloud of good cigar smoke," The old world certainly looks better when you see it that way.

You often hear of a cigarette smoker switching to cigars, but it mighty seldom works the other way around. Once your taste is set for the rich, mellow flavor of a good cigar—well, there's no substitute.

We'll bet you "cigar satisfaction for life" against a thin dime that you will like Dutch Masters. Lay that dime on the nearest cigar counter. If you lose (and it's ten to one, you do) it will still be the luckiest bet you ever made.

If "Who's Who" gave the tobacco preferences of the various eminent men who appear between its covers, we'd lay a sizeable bet that most of the captains of industry and big financiers would be listed as cigar smokers.

Your Eyes at Washington these Tribune The standard of the st

FOR better or worse, your country, your state, your city, your money, and much of your happiness, are bound up irrevocably with the day by day doings at Washington.

And inevitably, with such treasure as the lure, there foregather the plunderers—the seekers of special privilege—the paid lobbyists of self-ish interests—and, too, the misguided zealots who would make their beliefs and their wills the law of the land.

You are not there to see, and to stay their thievery. But your newspaper, the Tribune, is watching for you—guarding with the one weapon dreaded above all others by the invisible government at Washington—the sharp sword of fearless publicity, the bared steel of bare facts.

No ordinary job of watching! And the Tribune has set no ordinary men to the task. Arthur Sears Hehning, Arthur Crawford, Guy D.

McKinney, William V. Lawson—safe to say, no four men in America could have been better chosen to observe for you, and to report to you.

Your eyes in Washington! No "sacred cows" are listed in their instructions—no privileged personalities—no taboos. Their single duty is to get the facts. The Tribune dares to print them!

Watch Washington—your Washington—through these eyes trained to see the facts.

Bond Prices Make Widest Advance in Several Years

(New York bond list page 33.)

IChicago Tribus Press Service.]

New York, Nov. 4.—Bond prices staged the widest advances of any single session for several years today. The gains are the result of the announcement after the close of trading Thursday that the New York federal reserve board had reduced its rediscount rate from 6 to 5 per cent. the billion dollar slash in federal reserve brokers' loans and the \$2,400,000,000 decrease in stock exchange loans.

BY FRED HARVEY.

(New York stock list page 35.)

New York, Nov. 4.—Sanity returned to Wall street today and trading on the stock exchange simmered down to \$6,183,700 ahares. For the first time in nearly two axciting weeks the figures reflected conditions actually prevailing at the time around the various trading posts.

Prices were generally lower, the predicted rush to buy stocks having failed to materialize. Losses in a handful-of industrials ranged as high as 17 points and lesser declines predominated in the changes throughout the list.

The close, however, found a good many issues pointing upward from [Continued on page 36, column 3.] BY FRED HARVEY.

Figures on fruit and vegetable shipments to sixty-six principal markets in 1928, furnished by the bureau of railway economics, may be instanced as evidence of the complexity of American civilization.

California is the leading producer of the vitamin bearing vegetables that have come to form a far larger proportion of our diet than they did in past years. It furnished 184,225 carloads. But the striking fact in the statistics is that 41.9 per cent of all this vast array of fruits and vegetables to market and 35 per cent more was transported by rail between 2,000 and 2,000 miles.

Of the states would be delivered to his itown?

California. Washington, and Arisona, the bureau's survey showed, had shipped to all of the sixty-six biggest markets. There was no state that did not in some degree supply some of these markets, although nine states furnished 71 per cent of the total cars unloaded in their terminals. These states, after California and Florida, were New York, Washington, Virginia, Maine, Georgia, Texas and Idaho.

It must be remembered that these figures cover only the rail transportation. The big movement by truck, such as comes into Chicago from the vineyards and orchards and gardens of Illinois, Michigan, and Wisconsin, must be redded.

Notes Changing Diets.

Of Florida's production of 57,895 carloads, about \$2 per cent traveled between 1,000 and 2,000 miles. It is little to be wondered at that the railroads, pushed by the demand for more and more tomatoes and spinach and oranges and grapes, have bettered their service on fruits and vegetables until their trains for such commodities are little slower than those hauling passengers.

Notes Changing Diets.

The vast increase in fresh fruit and vegetable consumption on the year round basis, which has been so marked in the last ten years, may fairly be regarded as an effective bit of farm relief that was not governmentally fostered. In all probability it has been due more to dietetic ideas sponsored by the country's physicians than to any other factor, although many of the railroads were active in finding markets for products such as the

Performs Creditably.

A sugar company able to cover its dividend in the last year has performed creditably. Reporting for the fiscal year recently ended South Porto Rico shows better than \$2.50 a share earned. The company paid \$2 regular and 50 cent extra dividends. Inasmuch as raw sugar futures are now substantially higher than the average

Trebles Earnings in Decade.

Those bullish on American Smelting stress not only the indicated 1929 earn ings of \$10 a share, more than double current dividend requirements, but the fact that because of the sliding scale upon which the company makes its contracts it is virtually independent of price fluctuations. American Smelting's earnings have more than trebled in the last decade.

Food stocks have been attractive on the decline because of the old theory that this industry belongs in the "depression proof" class. Because of its essential character this industry has been little affected by business depressions. Consistent expansion in both sales and earnings have been reported

General Electric's Position As outlined by one firm, the bullish factors in the General Electric situation are: Orders in first nine months were 30 per cent ahead of last year and the largest in the company's history. Net earnings for 1929 will be about \$9 a share, not including equi-ty above dividends of subsidiaries.

Another factor tending to curb en thusiasm was the bearish statement claring that the break in stocks is liable to have some effect on the bus ness of the country psychologically, if in no other way. This, the secretary said, was particularly true of the luxury lines, although business conditions in general are sound and no fundamen-

tal change in them is anticipated.

The high spots of teday's trading were in the first half hour of business, when approximately 2,000,000 shares were turned over at prices of from \$1 to \$14 a share below last Thursday's losing figures, and in the last ter minutes, when the leading industrials were driven to new low levels for the day under a fresh burst of selling orders. Drive Athletic club is a brand new organization composed of the Midway Athletic club and the Cambridge club, which has a club house [formerly the Sisson hotel] at the southwest corner of East 53d street and Everett avenue, overlooking the newly made parkland reclaimed from the lake.

Total Membership Is 2,900.

The Cambridge club was organized about two years ago and has a membership of 900. The Midway Athletic club, formed about five years ago, has an enrollment of 2,000 members. Plans were drawn shortly after the club was organized for an imposing club house at the Midway and Stony Island corner. Construction, however, never got under way.

The site on which the Midway Athletic club contemplated building fronts 150 feet on Stony Island avenue and has a frontage of 200 feet on the Midway. It extends west from Stony Island to the Illinois Central right of way.

Both the Midway and the Cambridge club will give up their present names and the combined organization will be known as the Outer Drive Athletic club. Officers of the new body

What \$16,000 buys in The American Weekly

A full page in color nearly 3 times as big as any other magazine page in the world.

6,000,000 families at a cost of less than 1/2 cent per family.

The attention of the entire family instead of a single buying factor.

You may not like every article in a given issue of The American Weekly, but no offense intended; we are not editing this magazine exclusively for you.

There are not enough people in the United States with reading appetites exactly like yours to give us 6,000,000 circulation.

You may not like every article we print, but you will be vitally interested in some article in every single issue.

And there you have the secret of our success.

The American Weekly has the largest circulation in the world and is still growing, thank you, because editorially it is the most interesting magazine in the world.

The American Weekly is not a man's publication, not a woman's magazine, nor a comic strip for children. It is not published either for the intelligentsia or the moron.

It is edited to interest and hold the attention of the typical American family and the best proof that it does this is the fact that this magazine can boast the largest circulation on earth.

The advertiser in The American Weekly gets more for his dollar here than he can buy over any other magazine publishing counter in the world.

For \$16,000 he can buy a color page nearly three times the size of any other magazine page and the attention of 6,000,000 interested families, at a cost of less than % cent per family.

Six million interested families in the richest buying centers of the United States.

The most people at the lowest cost! If you have a national advertising proposition, then you have an American Weekly proposition. Where can you spend your advertising dollar more effectively?

Papal College Students Speak Over 20 Tongues

Pontiff Recalls Story of Tower of Babel.

ROME, Nov. 4.—The graduation speeches of students of the College of the Propaganda here today, in the presence of Pope Plus XI., cardinals, diplomats, etc., were delivered in about twenty-five different languages

After the opening speech in Latin came a series in Sanskrit, Malahar, Hebrew, Chaldean, Syrian, Japanese, Chinese, Siamese and others. Then, after singing the "Exultate Deq" by Palestrina, there followed speeches in Kaffir, Greek, Gaelic, Norwegian German, English, French, Polish, Serb, Spanish, Roumanian, Portuguese, Magyar, and others. A colored alumgus from Jamaica closed the ceremonies in Italian.

Pope Pius expressed his pleasure that God had glorified all these tongues. He recalled the Tower of Babel, as described in the Old Testament, when to punish human pride God originated the confusion of tongues, and the New Testament ex-hortation of Christ to his apostles to

The Question.
Do you keep the clock in your little fast?

The Answers, Mrs. Hilda Olson, 3755 North 74th avenue, housewife do not. I try to keep it exactly right. It is perfectly silly to have the clock half an hour fast—there are families who keep the clock an hour fast. I do not see that it helps any as long as you know it is fast, and it

"MAJOR BARBARA": George Bernard Shaw's comedy, in four acts, as revived by the Theater Guild of New-York: revival shown-in Chicago November 4, 1929, in the Blackstone Theater, with this cast:

HERE, after nearly fourteen years, is "Major Barbara" again; and it is much as it was when, early in 1916, Miss Grace

George gave it, with "The Liars" and "The New-York Idea," in the Garrick. Indeed, it is much as it was E. Levine of Creighton university. when, in 1905, it was new. The Thea-Omaha, in his announcement to the ter Guild, making a point of doing each season something of Shaw's, put this piece on last season in New-York, where, doubtless, it proved of high satisfaction to the subscribers. But have been found to possess a powerhave a precision railroad watch. I set the

It seemed to me to be heavy-footed—what it is now smart, I believe, to term "pedestrian" gloom and depression." -when Miss Annie Russell acted it in

True, like everything else he has school at Clapham Commons, maker of arms provides one of those moments: it is, I think, as fine as even keep the clock a little fast, fifteen minutes or sparks from some of the encounters physicians instead of by "healers in the fast, fifteen minutes or sparks from some of the encounters physicians instead of by "healers in the fast, fifteen minutes or sparks from some of the encounters physicians instead of by "healers in the fast of the fas fast, fifteen minutes or sparks from some of the encounters physicians instead of by "healers sg; but I doubt if I between Undershaft and Barbara, alwith little or no education in the know why I do so. Miss Goldie Olsher, 2504 West Divithat don't quite come off. And his actends are not craftmanly.

The Guild unit engaged in the com edy makes the best of its task—a task because Shaw leaves so much for the actors to do. Mr. Digges plays Undershaft consistently and, within the con fines of his personality, well. If asked. I would say that I think Undershaft of a physician. Persons with diabetes to be a man of sturdier fibre than he are writing their own death warrants is in Mr. Digges' portrayal; and the in taking such treatments, he said. chances are quite that I should be wrong. It may be that I am unable to forget the late Louis Calvert in the rôle with Miss George. (He did not appear in Chicago with her: the Undershaft here was Hubert Druce.) Mr. Waram is good as Bill Walker; so also is Miss Wheatley; and Miss Inescort

"Brothers," with Bert Lytell in the rôles of twins, was made known to Chicago last night in the Erlanger, where the audience was large and, by report, immensely enthusiastic. The star, who was a somebody in films before they took to uttering noises, made a speech.

This may or may not be the final week of "Fires of Spring" in the Cort; but it is certain that Miss Leontovich and her associates will not tarry beyond the 16th. The next play there will be called "Dirty Hands." It is something by A. W. and E. L. Barker of Chicago. They have, as dramatists, been represented on the New-York stage by a piece named "The Buckaroo." Richard Taber. Miss Marjorie Gateson, and Ray Walburn are named for the cast of "Dirty Hands."

"TELL ME, PRETTY MAIDEN"

Miss Martha Fitts, one of the season's debutantes, made this pen and ink sketch during a rehearsal of "Tell Me, Pretty Maiden," a song and dance number of "Let's Go," the Service club revue to be presented on Nov. 15 at the new Chicago Civic Opera house. The costumes and words recall the days of "Floradora," an imported show, the song starting, "Tell me, pretty maiden, are there any more at home like The song was sung by a sextet that set a musical comedy

in the Salvation Army dispute by addressing a letter to one newspaper describing the discrimination against the members of the Booth family, which Gen. Edward J. Higgins, head of the army, denies exists. At the same time another journal prints a circular accusing Commander Evange-line Booth, head of the United States branch of the army, of being one of the causes of her brother's breakdown. This statement, it is alleged, was

printed by Mrs. Booth and distributed among the army's field officers. While regretting the publicity given the treatment of her family, blaming particularly the use of the word "vendetta" in connection with the attitude the high council is taking towards the Booths, Mrs. Booth nevertheless makes it quite plain that she believes her family is persecuted.

There's a Subtle Shade of Powder for Every Type

We hear much of powder blending, these days, and how well it is for the

these days, and how well it is for the lay person to work out her own particular powder shade to suit her own particular coloring.

Expert powder blenders, women who have been in the game for years, are not unanimous in their approval of the preaching. They claim for their art a skill above the average woman's, and prehaps justifiably. After all, I and perhaps justifiably. After all, I suppose it does take a keen color sense to evolve the perfect powder for an individual skin. And if women aren't blessed with it, they might make rather bad mistakes with their inexrt mixing. On the other hand, I have own those who were really masterly in the way they could arrive at just the right tone for their complexions. But their clothes, their houses reflect-ed also that sense of artistry needed for the job.

Mixing colors is a talent, and curiously enough it is one of the ones very woman honestly believes she You might better expect to preserve the friendship of a woman by telling her she has a homely baby than by telling her she has no eye for color and she should let somebody do her shopping for her. I know one, for example, whose eyes are not a good brown; they are lightly flecked with brown tints. For years she has been clinging to browns because she is convinced that they bring out the brown in her eyes. They may lo that, too, but her browns are those depressing, practical hues that have a way of aging as only a dull, uninte

Velvet Lounging Pajamas Are the Last Word

idol is of clay—our own great good Henry Clay. For she has patterned this, the most spectacular of her lounging pajamas, after the type of dressing which gentlemen of the Clay period used to affect. A direct descendant of coats worn by men in the romantic age of dressing is this fitted affair of plaid velvet—black, gray, pink and white. Made with a flaring skirt, it attaches to the back a veritable "coat-tail." The wide trousers are executed in cream moiré. It is probable that beach pajamas will be as prevalent as ever during the coming southern season. Already some of these designed by famous French couturiers have been viewed by us. One especially striking model is created by Suzanne Talbot and introduces a full length coat. In this both the pajamas and coat are of taffeta, but while the former—trousers and tuck-in bodice—are of light blue taffeta with the coat of black taffeta is treated to small motifs in turquoise, clean green and red. Many lounging pajamas are being made of panne and transparent velvet. Indeed, white velvet is among the favorite offerings of the lingerie designers in Paris. One of the most St. Louis clear. and top made of this medium and treated to motifs of sunburst plaits of crêpe de Romain.

But to get back to the powder blending. If there is confusion in the mind about an appropriate shade for the individual, it is better to let an expert make suggestions. One doesn't have to do more than try them and in on the University of Chicago campus of the Meximum and the Meximum a

Crowds Gather to See Society at Opening of Chicago's New \$20,000,000 Civic Opera House

[TRIBUNE Photo.]

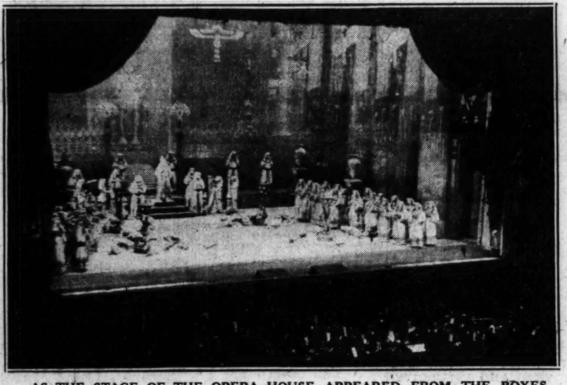

CROWD WATCHES THE ARRIVAL OF SOCIETY AT FIRST NIGHT'S PERFORMANCE IN CHICAGO'S \$20,000,000 OPERA HOUSE. Scene in Wacker drive in front of the new building, as it appeared looking north from the elevated railroad structure at Madison street. The picture shows the double row of autos approaching the entrance by way of the esplanade and the throng on the sidewalk and in the street in shadow of the "L" structure at the right.
